

Overview

Death by Words is the simplest possible destillation of a coop word association game.

Each turn, look at your card to see which 2 words you need to connect with a 1-word clue.

Get it right, and your card goes into the table, and its word can be subject of future clues.

Game highlights

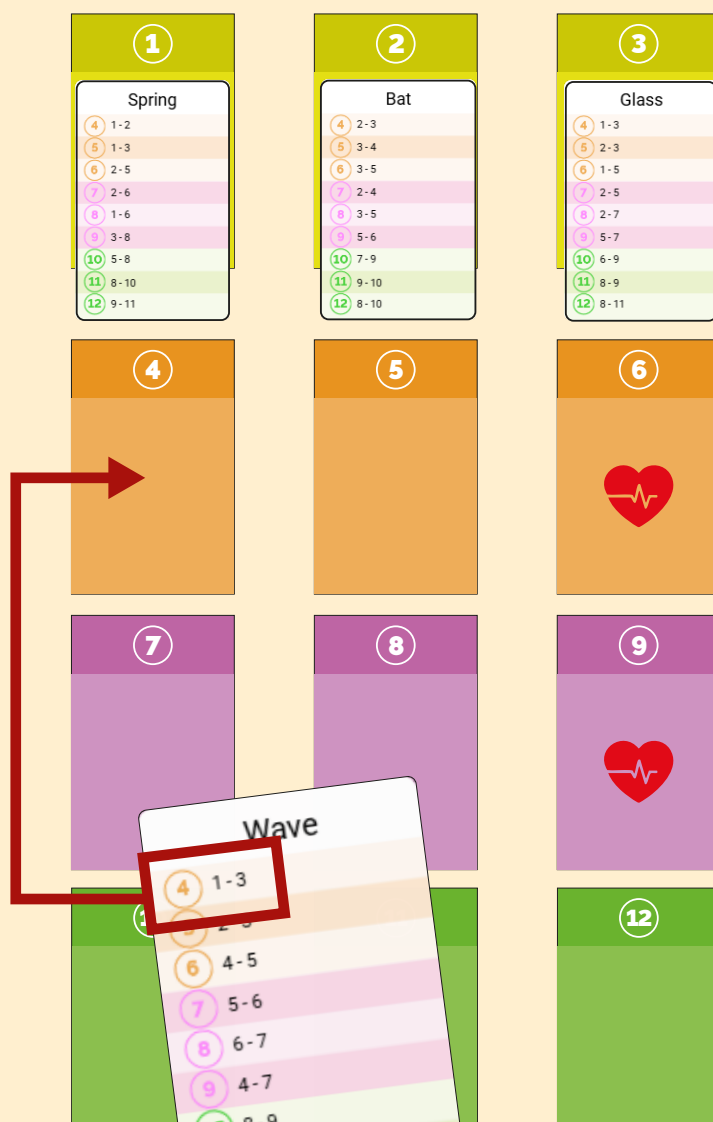

- **Increasing difficulty:** the game starts easy with just 3 words out. By the end, there will be 11.
- **Everyone can be the cluegiver:** each turn, a new player takes the role.
- **Tiktok-friendly:** the gameplay can be explained and demoed in a short-format video
- **Landmarks:** From the authors who created the hit word association game Landmarks

Components

- 110 cards

1 Give a 1-word clue to connect words on 1 & 2, as shown in your card

2 If the others **get it right**, place your card on 4. Next player looks at which words they should connect for the 5th spot. If they **got it wrong**, lose a life.

3 Reach 12 to win, lose all your life and die by words!
